Press freedom is too valuable to be cast aside so carelessly

JOHN WILLS, Low Wood, Brockweir

The proposed improvements to the Article 110A of the European Convention on Human Rights are a step in the right direction. They are recognition of the key role that journalism plays in a democratic society. It is crucial that we maintain a free press that can hold government to account. We must not let the rights of journalists be trampled on.

Village will suffer when NDR opens

GEOFF REEVES, Cheltenham

The proposed improvements to the Article 110A of the European Convention on Human Rights are a step in the right direction. They are recognition of the key role that journalism plays in a democratic society. It is crucial that we maintain a free press that can hold government to account. We must not let the rights of journalists be trampled on.

Source of morality

KAREEM Tahir, Gloucester

Omar’s claim that the Black Death and the witch hunts were just examples of the failures of morality and reason is not accurate. The Black Death was a catastrophic event, but it was caused by the bubonic plague, not by moral failures. The witch hunts were fueled by the fear of the unknown and superstition, not by a lack of morality.

This is a difficult issue to address, but we must strive to find a balance between freedom of expression and the need to maintain a healthy society. We should not allow the pursuit of truth to harm others. The “good” of a free society is built on the foundation of respect and responsibility. We must not allow the “bad” to degrade our society.

A cure for obesity?

CAROLINE GARRITY, Cheltenham

Obesity is a major public health crisis, and finding a cure is essential for improving the health of our population. While the fad diets and quick fixes are easy to follow, they rarely lead to long-term success. It is important to focus on healthy lifestyle changes, such as regular exercise and a balanced diet, to achieve sustained weight loss.

In conclusion, while finding a cure for obesity is a complex problem, we must not lose sight of the importance of prevention. We need to prioritize education and support for healthy habits, while also addressing the root causes of obesity such as poverty and lack of access to healthy food.

The proposed improvements to the Article 110A of the European Convention on Human Rights are a step in the right direction. They are recognition of the key role that journalism plays in a democratic society. It is crucial that we maintain a free press that can hold government to account. We must not let the rights of journalists be trampled on.
